

# GX50 Gumboots

- Self cleaning tread pattern
- Removable insole
- Smooth easily cleanable outer surface
- Designed for use in food contact scenarios
- One piece moulded
- Lightweight
- Lasts up to 3 times longer than PVC
- Comfortable and safe
- Insulated for cold environments
- Available in safety & non-safety toe
- Available in olive green, white, black and blue

# GX50 Gumboots

## Technical Specifications

Construction:	Direct Injection
---------------	------------------

### Material

Upper:	Polyurethane or thermo-polyurethane virgin
Outsole:	Single Density Polyurethane
Size range:	3-14 (UK 38-50)

### Chemical, Oil and solvent resistance

Samples are immersed for seven days at room temperature. The rating is based on the volume change according to the following key:

EVALUATION	
Rating	Percent change
1 = Excellent	0 - 3 %
2 = Good	4 - 15 %
3 = Fair	16 - 35 %
4 = poor	36 % >

Acetone	4
Acetic acid(% 99 ±1)	4
Ammonium solution(% 25 ±1)	1
Boron oil	1
Di ethylene glycol	2
Ethanol	3
Ethylene glycol	2
Ethyl acetate	4

Formic acid	4
HCl Hydrochloric acid(% 32)	4
Hydrogen peroxide (% 30 ±1 )	2
Hydrogen peroxide (% 50 ±1 )	4
Isopropanol	3
Liquid soap	2
Methanol	3
Methyl ethyl Ketone	4
Methylene chloride	4
Motor oil	1
Nitric acid HNO3(% 10)	4
Nitric acid(% 65±3)	4
nhexane	1
n-Heptane	1
Olive oil	1
Saturated salt solution	2
Saturated sugar solution	2
Silicone oil	1
sodium hypochloride(% 6 - % 14)	1
Sodium hydroxide(% 30)	1
Sulphuric acid H2SO4 (% 50)	4
Sulfuric acid(% 95±1)	4
Toluene	4
Vinegar	3

## Manufacturing Specifications

Tested to:

EN ISO 20347 – non safety version

EN ISO 20345.S4 – safety toe

EN ISO 20345.S5 – safety toe and midsole

Complies with AS/NZS 2210.3
